

To: Interventionist, Educational Consultant or Provider

Re: Sibcy House and Williams House Referral Packet

We value the relationship Sibcy House and Williams House at Lindner Center of HOPE has with the many professionals within our network of HOPE, including educational consultants and interventionists. As a way to ease the admission process for your client we have compiled a referral packet that includes information needed for admissions.

We understand that many times an admission can transpire rather quickly and gathering this information in advance can speed the admission process, help the client feel less anxious and provide overall better care for your client. Advanced completion of this packet is not required, but again it may help facilitate the intake process.

If you have any questions, please contact us.

Kathleen Neher, LISW-S

Admission & Referral Coordinator
