PRESENTERS AND TOPICS OF DISCUSSION

Symposium Overview:

8:30 to 9:30 am – **Considering the Needs of the Whole Child at School** presented by **Amanda Van Mil, M.Ed.**, Teacher Adolescent Partial Hospitalization Program – Lindner Center of Hope

After the presentation the participants will be able to:

- Identify domains within the school environment that contribute to student outcomes
- Explain how common mental health conditions and neurotypes present at school
- Explore opportunities for enhancing communication and understanding

9:30 to 10:30 am – **Neuropsychological Testing and its Value in Understanding School-Age Children** presented by **Jennifer L. Farley, Psy.D.**, Associate Chief of Psychology Services, Clinical Director of Neuropsychology, Lindner Center of Hope

After the presentation the participants will be able to:

- Explain the common referrals for testing
- Explain different aspects of functioning that are evaluated
- Describe how neuropsychological testing can help guide realistic suggestions for learning

10:30 to 11:30 am – **Panel Discussion: What Now: A Panel discussion about translating knowledge into strategy** presented by **Amanda Van Mil, M.Ed.**, **Jennifer L. Farley, Psy.D.**, **Julie Foster**, Outpatient Therapist, **Maria Sulcer**, Outreach Specialist (parent), and **Tracy S. Cummings, MD**, Psychiatrist, Chief of Child and Adolescent Psychiatry, Medical Director, Adolescent PHP – Lindner Center of Hope
