

Sibcy House and Williams House Residential Programs

Our Residential Programs are out-of-network will **all** insurance.

Our Residential Programs are often covered by insurance on an out-of-network basis. Many of our patients utilize out-of-network insurance reimbursement to help finance treatment.

Our team will work to help patients and families obtain out-of-network reimbursement from their insurance plan. As a result, many patients with insurance policies offering out-of-network benefits receive partial coverage.

All insurance companies have different plans and policies; therefore, reimbursement amounts vary.

You can help our team by providing us with information about who your health insurer is and what insurance policy you have. We will verify your coverage and provide you coverage details as quoted by your plan.

For more information about out-of-network reimbursement for Sibcy House and Williams House, please visit our [Frequently Asked Questions](#).
